## Crucial Games Friday Between Antioch-Grant Fenton, Zion Victors

**McHenry Here Sat. Night; Sophs Beat Zion and Fenton Sophs**

Antioch High School basketball teams will play their most important games of the conference season tomorrow (Friday) night when they meet Grant High school at the Ingleside gym.

On these games lies the possibility of a sharing of the conference title by the Antioch varsity and the salting away of the title by the Sequoia frosh-soph team. Should Grant win, the varsity becomes the conference champion and the frosh-soph team has a chance at the co-title with Antioch underclassmen.

Antioch lost an opportunity to gain on the Bulldogs Friday night when she lost to Fenton here 59 to 53, while Grant was losing to Glenbrook 57 to 55.

The Sequoia played in reverse against Fenton. Past games have seen the local team behind in the first half and then moving out to win in the last half. Friday night Antioch led through the first half 30 to 28 and then wilted in the third quarter, making but 8 points to Fenton's 15. The Sequoia never caught up.

**Hendrickson Was the Villain**  
Lars Hendrickson, regarded by Antioch coaches as one of the best players in the conference, was the cause for the Sequoia defeat. He scored 8 field goals and 9 personal fouls for a total of 25 points. His eight points at the outset of the fourth quarter gave the home team too big an obstacle.

Wayne Herbst was high scorer for Antioch with 18 points, most of which came in the first half, and Jerry Huml was second with 14 points.

**Zion-Benton Wins 85-71**  
The loss to Fenton was a let-down to the Sequoia who proceeded to lose to Zion-Benton there Saturday night 85-71.

It was the first loss to the ZeeBees by the Sequoia since 1953-54 and is accounted for by the playing of one person, Ronnie Stanton, Zion star, who cut loose with 42 points, a new scoring record for his team.

Behrens held Stanton to 12 points in the first half, but he acquired three personals and his fear of fouling evidently gave Stanton the rope that he needed in the second half.

The Sequoia led by Herbst and Huml overcame a Zion 20-12 lead at the first quarter to give Antioch an advantage at the half of 36 to 35. Again it was thought Antioch could do her regular last half comeback but Stanton robbed them of that thought.

Rugged work by Art Hanke as well as that of Huml and Herbst kept Antioch in the game but they weren't quite able to overcome the hot-shot shooting of Zion.

Hanke scored 20 points, Huml, 19, and Herbst 16.

**Sophs Win Both Games**

In the preliminaries the Antioch frosh-soph team beat Fenton 66 to 43 Friday night and the Zion underclassmen 68 to 48 Saturday night.

In both games Paul Magiera, Leroy Gallagher, Jim Oilschlager, and Dick Hogan scored 10 points or more for Antioch.

The Sequoia varsity will perform before home fans Saturday night here in a non-conference game (continued on page 7)

## Delavan Nips Wilmot In Season's Curtain; Timmer Out of Game

In its last regular game of the season the Wilmot Panthers lost to the Delavan Comets at Delavan last Thursday night 69 to 60. Without their star guard, Dick Timmer, who had a sprained ankle, Wilmot was severely handicapped.

Wilmot finished the season with a conference record of 5-9 and Delavan ahead of them 5-8. The Delavan 'B' team beat the Wilmot 'B' team 59-45.

Timmer by his inability to play lost the scoring championship to McClellan of Delavan by 14 points. McClellan scored 28 points in this game.

## Next Wednesday Date Of Filing for Board

February 27 is the first day for filing of petitions for candidates seeking nomination to the Antioch Township High School Board of Education election to be held April 13. The petitions are now available at the high school office.

The terms of Fred Scott and Louis Biel expire.

Residents of the school district wishing to run for the Board of Education posts must submit their signed petitions and statements of candidacy to Louis Biel, secretary of the board, at the high school office by March 23. Such petitions may be withdrawn until March 29.

## Cold and Dry Weather Encourage Grass Fires

Cold and dry weather were experienced by Antioch during the past week with the mercury staying below freezing most of the time.

Dryness led to danger of grass fires and the Antioch Fire Department was called out on one at 3 p.m. yesterday on Rte. 173 between Smart's Country House and Felters subdivision.

Cooperative Weather Observer Roy Kufalk said there was but a trace of snow on Feb. 14 and 15 as the only precipitation.

Maximum and minimum temperatures for the week in Antioch were:

Thursday, Feb. 14	37-19
Friday, Feb. 15	36-19
Saturday, Feb. 16	35-19
Sunday, Feb. 17	32-7
Monday, Feb. 18	36-21
Tuesday, Feb. 19	28-6
Wednesday, Feb. 20	33-7

## Sub-District Tourney Underway at Wilmot

The sub-district high school basketball tournament got under way at Wilmot last night with Williams Bay defeating Clinton 41 to 36 and Genoa City winning from Sharon 68 to 62.

Both Wilmot and Walworth drew byes. Walworth will play Williams Bay at 7 p.m. and Wilmot will play Genoa City at 8:15 p.m. Friday evening.

Saturday will see the losers of the Friday night games playing the preliminary at 7 p.m. and the winners of those games playing at 8:15 p.m. for the district championship.

The big gymnasium at Wilmot seats 1600 persons and there is plenty of room for any spectators who wish to attend.

Coach Frank Bucci is priming his team for this event and is hoping to be in the final.

## Amer. Legion Division Oratorical Contest Set; Conventions Arranged

Convention dates for the American Legion call for a gathering of the tenth district June 21 at Gurnee, and the second division meeting at Waukegan July 7.

Clarence W. Boyd of Libertyville post is commander of the second division and with that honor comes the privilege of naming the convention site.

The second division oratorical contest will be held at 1:40 p.m. Feb. 26 at the Grayslake High school with the Rev. Harold McElvany of the Waukegan Methodist church serving as judge from the 10th district.

At 8 p.m. Feb. 26 posts will send representatives to Waukegan at the call of Dist. Cmdr. Marvin L. Hickman to plan the Junior Legion baseball season.

Returning to the matter of conventions, the Department convention will be held in Chicago from Thursday to Sunday, Aug. 1-4, and the national convention will be held in Atlantic City Sunday through Thursday, Sept. 15-19.

A pilgrimage to Europe will be conducted Sept. 20 to Oct. 17.

## Post Office Seeks Car For Mounted Carrier

The postoffice department wishes to obtain a vehicle for the mounted route for the Antioch office, which with city delivery service will start April 1, according to Postmaster Roy I. Kufalk.

Competitive bids will be received until February 28. The bids will be based on a vehicle furnished daily for approximately 5 hours on an hourly basis. The bidder must furnish complete maintenance of car. The postoffice department assumes the liability while in use by the postoffice employee. Forms may be had at the post office.

## A Few Rotten Apples Spoil The Whole Barrel

## High School G.A.A. To Give Party for Lake Bluff Orphans

The Girls' Athletic Association of Antioch Township High school is planning a party for the children of Lake Bluff Children's Home this (Thursday) evening, from 7 to 8:30 o'clock.

The group from the orphanage will be between the ages of six and ten. The program for the evening will consist of games, entertainment, presentation of gifts for each child, and refreshments.

The members of the Girls' Athletic association taking part in this activity are as follows: Mary Lou Seyfarth, president; Judy Horton, vice president; Peggy Cardiff, secretary; Elaine Christensen, treasurer; Judy Maleck, Cleon Schley, Joan Burton, Sigrid Petersen, Mary Shepard, Sue Kopach, Trudy Good and Sandy Kubis.

Miss Mary Donovan and Mrs. Karen Baird, G. A. A. advisers, will accompany the group of girls to the Lake Bluff Children's Home.

## Sub-Region Games at Salem Central High Set for Feb. 28, Mar. 1

The sub-regional tournament at Salem Central Thursday, Feb. 28 and Friday, March 1 promises to be a thriller.

The first game starts at 7 p.m., and the finals will be played at Beloit on Saturday night, March 2. Burlington High, currently leading in the Southern Lakes league, will play Salem Central which ranks sixth in the Braveland conference. The second game involves Kenosha High and Lake Geneva, both teams ranking in the first division of their respective leagues. Tickets will be available from students or at the high school office where the telephone number is Vinewood 3-2811.

The Falcons were defeated by Menominee Falls last Friday night 83 to 70. The defeat was the second from that team which won at Salem Central earlier in the season 66 to 61.

The Falcons did good on the rebounding, taking 52 of the Fall misses, but poor passing lost them the ball on 16 occasions.

When fouls took Ralph Meyers from the game the Falcons lost their best scoring threat, and Coach Ralph Lonerger had no one to replace him.

Salem's B team won an upset over the Menominee reserves 43-42. Central will play Brookfield this evening.

Salem Cent.	B	FT	P	TP
Vince Getka	5	12	1	22

**Will Discuss Baseball**  
The Lions Club will hold its dinner meeting at 7 p.m. Monday at the 19th Hole restaurant on Rte. 59. A representative from the Wilson Sporting Goods Co. will speak on the coming baseball season. With spring training now in progress, interest in trades and changed lineups will be strong.

## Funeral Today For D. N. Deering, Doctor, Sportsman, Humanitarian

## Antioch High School Music Department to Present Vocal Concert

The music department of the Antioch Township High school will present a concert of vocal music on Sunday, Feb. 24, at 3 p.m. in the high school auditorium. The concert, entitled "Music for a Sunday Afternoon" will feature both secular and sacred music.

Many musical numbers from recent Rodgers and Hammerstein Broadway successes will highlight the secular portion of the program.

The sacred portion of the concert will have selections of great church music written by Gounod, Bach, Palestrina. One of the outstanding performances will be the first public performance of the Missa Marialis, a mass written by Henry Charles of Illinois Wesleyan University.

The cappella choir and the girls glee club will be joined by various small ensemble groups in presenting what is hoped will be a very pleasant afternoon of music. No admission is being charged.

## Venetian Village Says It Wants New School In Its Own Vicinity

Not all residents of Lake Villa are enthusiastic about the proposal to place a new school in the Lindenhurst area.

The recommendation of the Board of Education came up for criticism at a meeting held Saturday in the Venetian Village Community hall, where people of that and the Miltimore area met with the board for discussion.

The people south of Grand ave. want the school in their area which they say furnishes the largest number of pupils.

Harry Pavel of the board of education said the Lindenhurst site was the only available one, and that by locating the school there it would lead to Millburn joining the school district.

Pavel said the Weber Duck farm was not for sale, and that the land provided by Engle and Sons was not suitable as to drainage and full title to it could not be obtained. Another area suggested was out of the district.

An attempt to place the meeting on record was blocked by the chairman who said the purpose of the meeting was to get information and discuss the matter so they could make up their minds on voting at the referendum.

Pavel said that a 20-acre site along Grand ave. near Lake Villa had not been considered.

The meeting was called by Leonard R. Carter, president of the Venetian Village Civic association who was unable to attend on account of sickness. Other officers presided.

## Starts New Business

Herbert Litchfield has resigned his position at the State Bank of Antioch and has started the Antioch Business Service with his office on Main st., below the Baethke barber shop. He is offering services in income tax preparation, letter writing and photostatic copy work.

## 1,438 Entries in Men's Singles Bowling Tourney Sets New Record for Annual Event at Recreation

Henry Pape was the only Antioch bowler this year who placed among the top 15 in the twelfth annual men's Singles tournament held Feb. 2 to 10 at the Antioch Recreation.

The 1,438 entries providing a prize fund of \$4,170.20 topped last year's entries of 1,163 when the prize money was \$3,489, according to Carl R. Gibson, manager.

Fred Pesic, Chicago took top money, \$500 with a score of 731 bearing and 80-pin handicap.

Stanley Grum, Jr. of Mundelein, and Thurman Gibson of Detroit, one of the nation's top-ranking tied for second with an identical 709 total and they will both get \$250.

Grum who carries a 181 average, had a total of 709 on scores of 269-194-208, with a 36-pin handicap. His 269 score was the highest of the tournament.

Gibson's 709 was actual wood in counts of 265-220-224-709.

Pape with a handicap of 58 bowled 188-213-237 for a total of 694. Other Lake County keggers among the first 15 prize winners were,

## Antioch Loses Prominent Physician, Beloved Citizen

Antioch community was saddened this week by the passing of Dr. D. N. Deering, a practicing physician and surgeon and well-known member of the community for twenty-six years.

Dr. Deering died as a result of a heart attack, suffered Sunday while visiting in Piercelon, Indiana. He was rushed to Hines hospital by ambulance at his own request, and died there Monday evening.

**Was Community Worker**  
He will be long remembered here not only for his fine record of service as a doctor, but for his untiring efforts in behalf of every worth-while community endeavor.

An ardent sportsman, he was also a strong believer in conservation, and was instrumental in securing plantings of fish in many of the lakes of the area. He was co-organizer, with the late C. L. Kutil, of the Antioch Conservation club, composed of sportsmen of the area and boys of high school age. Much good work was accomplished by this group.

Always interested in the improvement of his community he was the "spark plug" of the Chain O' Lakes fishing contests sponsored while he was secretary, and later president of the Antioch Lions club.

Boy Scout work was a part of his life, and he was an untiring worker for that organization. He was a member of the Antioch Scout committee for many years and also a member of the committee which erected the Antioch Boy Scout home, later serving on the board of directors.

He served with the U. S. Army during both World Wars, receiving a commission of Major at the close of World War II. He served with the invasion forces in Europe.

A member of the first Antioch Lions Club Rescue Squad Fund Committee, he played a part in setting up the precedents which have served the squad so well over the years.

He was born August 16, 1899 in Sutton, Nebraska, and graduated (continued on page 12)

## Antioch Man Cited for Service to War Veterans

Franz A. Swanson, Antioch, Superintendent of the Lake County Veterans Assistance commission received a national citation from Lake County Chapter 323, Military Order of the Purple Heart for his personal concern, outstanding devotion and dedication to the cause of the veteran.

Also receiving the same award were W. R. Sigler, assistance manager of the Illinois State Employment Service office, and Mrs. Ethel E. Horn, secretary of the Lake County Veterans' Assistance Commission.

Swenson has served in the commission office seven years. Veterans in need are helped through his office.

## State Bank of Antioch Buys Grass Lk. Bonds

The State Bank of Antioch bought the \$76,000 bond issue of the Grass Lake School District No. 36, providing an interest rate of 3 1/2 per cent. There were five bidders.

The Board of Education will meet next Wednesday to look over plans and specification prepared by the architectural firm of Maxon, Smith and Millen of Barrington for the addition to the present building.

## Edmund Garwood, 54, Former Antioch Resident, Dies in Chicago

Edmund Garwood, 54, a former resident of Antioch, was found dead in his Chicago home Monday. He had made his home in Chicago for the past ten years.

Survivors are two brothers, including Sam Garwood of Antioch and three sisters.

Funeral services were held Tuesday in Antioch. Interment was in Hillside cemetery.

## Anthony J. Scully to File for Twp. Assessor

Anthony J. Scully, Antioch business man, is circulating his petition for the office of township assessor. J. P. Miller, present assessor, will not be a candidate for re-election. Scully will be the third to file for the office.

### Thanks to a Private Industry

In the view of the Los Angeles Times a happy "disproof of the government-plans-best theory has been presented by the privately managed American oil industry."

This presentation concerns the European oil crisis. The Times continues: "American oil is saving Western Europe from the winter. Europe is not getting as much oil from America as it wants . . . but it will not freeze until the canal is reopened and the broken pipelines are mended, thanks to a private industry. The European shipments were begun and continued without threats of shortage or rationing to American consumers. All this has been possible . . . because American oil companies never ceased in their modernization and expansion programs—their preparations for the future."

The Times points out that last year total demand on American oil producers exceeded 9 million barrels a day for the first time. Less than one-sixth was imported. All the rest came from our own oil wells and refineries—which is convincing proof in itself of the industry's achievements in capital expansion, development, and self-improvement.

Finally, the Times' conclusion goes to the heart of the matter: "America, we have been assured, cannot fight another world war on its own oil but it can meet a crisis that threatens to destroy Western Europe economically, quite as thoroughly as war would do it."

"And for this the private oil industry of the United States deserves most of the credit—although the politicians will be reluctant to give it."

\* \* \*

### No Alternative

J. A. Livingston, the well-known writer on business and financial affairs, points out that numbers of companies have been experiencing rises in sales and gross income—yet have suffered a decline in net income.

One of the companies cited is a leading producer of farm equipment, trucks and other machinery. Its 1956 sales exceeded the 1955 figure. But its net income went down.

This should be of interest to those who think that big sales automatically mean big profits. It should be of especial interest to those who have complained that farm equipment prices are too high, and that there must be a nigger in the woodpile somewhere.

Actually, factual studies show that over the years

rises in farm equipment prices have been less than rises in the value of farm products. This to one side, the farm equipment people do not raise their prices unless there is no other recourse, because holding prices down is simply good business. Higher prices tend to retard sales, and no manufacturer wants that. In addition, the farm equipment industry is a highly competitive one, with many producers aggressively seeking the business. And price is a mighty important factor in deciding customer choice of this brand or that.

Why then, have farm equipment prices risen on occasion? The reason is found in higher wages and higher steel and other material and overhead costs. The manufacturers have no alternative when these costs rise.

\* \* \*

### The One Sound Long-term Goal

Speaking at the 92nd annual convention of the National Wool Growers Association, Secretary of Agriculture Benson said that farm price supports should serve "not as an end in themselves, but as a way of providing needed stability in agriculture."

Price supports, he continued, should be limited to a level that "does not require excessive restriction on production and does not interfere with marketings or build up surplus stocks."

This, by inference, illustrates the great basic difficulty in any and all price support programs. Those programs cannot help but be strongly affected by political considerations, no less than economic considerations. They must represent compromises between a great many minds. Under these conditions, it is difficult to see how ceilings of the kind Mr. Benson described are possible of attainment.

There have been no serious surplus problems in the case of major farm commodities which still move in the free market system, free of government controls and supports. As an example, last year witnessed a record out-put of meat—measured by both total production and by per capita consumption. And all that meat moved into the channels of consumption—not into storage. Moreover, there were substantial price improvements, from the producer's standpoint, during the year.

There can only be one sound long-term goal for agriculture, entirely aside from interim expedients—that is, to bring about conditions that will make possible a farm economy which preserves the free market for all of agriculture. Any system which promotes the production of agricultural products which cannot be sold is absurd on its face.

\* \* \*

### The Capacity of the States

An all-out campaign is on to persuade Congress to give huge grants to the states for school construction, on the theory that the states are incapable of meeting the need.

Yet in December, 1955, the White House Conference on Education, which was the largest and most representative gathering of its kind we have yet known, reported: "No state represented has a demonstrated financial incapacity to build the schools it will need in the next five years."

### University of Illinois Reports Retail Markets

Chicago retail food markets hold generally unchanged from last week.

Continuing consumer values are found in beef, lamb, pork (slightly lower again), eggs, turkeys, stewing hens, new-pack citrus products, and fresh oranges and grapefruit. Slightly higher prices show for tomatoes, lettuce, brussels sprouts and green cabbage.

The University of Illinois consumer service takes advantage of a relatively static market to look ahead at basic food supplies. Shipping point situations indicate continued stable to slightly lower prices to come. Here's the reasoning:

Lamb and sheep on feed are 5 per cent greater than a year ago, constituting largest market holding since January, 1948. Anticipate heavy supplies, low pricing, more store merchandising-promotion.

Beef animal on feed are 4 per cent above a year ago, a record 6.1 million head in January. The next few months will see heaviest marketing, keeping prices low, increasing promotional opportunities.

Pork prices inching downward should reach lowest points within next few weeks, the fall-'56 pig crop reaching market mid-March. Pork could be real cheap again next fall.

Turkey expectations are 10 per cent greater than last year, heavy breeds up 15 per cent, light weights down 3 per cent. Storage stocks were last measured at a record 165 million pounds. The broiler and fryer volume jumps up again in March, expected to reach 10 billion pounds—that 59 pounds per capita. This astronomical figure notwithstanding, most shippers expect better chicken prices.

Potato holdings are up 17 per cent over year-ago, and 11 per cent greater than the 1950-55 average, so spuds will continue cheap.

Fresh vegetables, winter production, is pegged 11 per cent below last year, principally in cabbage, lettuce and carrots. Smaller supplies of celery, snap beans, green peppers, beets, shallots, spinach and limas also are noted. Expect heavy supplies of tomatoes and sweetcorn, and corresponding value prices. Cucumbers, cauliflower and artichokes show slight volume increase, and fairly stable prices.

The long-term picture thus indicated, homemakers can consider these basically unchanged consensus prices noted in the U. of I. weekly food market summary for the week ending Feb. 23:

Beef—Steaks: sirloin 69-79c, porterhouse 79-89c, round off 4c to 49-65c on wider range; Roasts: Blade

cut off 2c to 33-35c, round bone up 2c to 49-55c, standing rib up 4c to 49-59c, rump 79-89c.

Pork—Generally improved consumer values are noted on lower quotes. Loin end roasts off 2c, 3-39c; rib end roasts off 2c, 43-49c; fresh Bostons off 2c, mostly 43c; center cut chops off 4-10c, 65-69c; picnic (Cala hams) off 5c, 35-39c; smoked Bostons steady 59-69c, to brand bacon off 2c, 59-65c.

Lamb—Roasts provide top values in some stores t a lower range of 49-59c.

Poultry — Turkey remains 49c with some variation to be noted by weight. Fryers are 43c on a fluctuating market, and stewing hens 39c. Most grade A eggs steady at last week's prevailing 47c dozen. Highest quotes show extra large whites at 81c and large whites 51c in some stores.

Produce — No major change in the fresh vegetable supply and price

picture. Slightly higher are vine-ripe tomatoes, brussels sprouts, celery, lettuce, cucumbers and cabbage. Snap beans are high and scarce. Temple oranges are lower at 39c dozen for popular size, D'Anjou pears quote lowest 2 lbs. 39c in shorter supply, bananas continue at 15c lb. in most stores, best Washington apples are 2 lbs. 49c, and few midwest Jonathans are feature values at 3 lbs. for 39c for small sizes. Peak shipments of short-crop California avocado and limited quantities of fresh pineapple appear as variety items in many stores.

How many chances do you take every day by climbing on a chair or whatever is handy, to reach those cupboards and other high places in the home? You are risking your neck every time that you use anything but an approved step stool or ladder. Falls are the greatest cause of home accidental injuries.

### Lake Villa Methodist Church Activities

#### Rev. Robinson to Preach At Two Services

"Be Not Afraid" will be the title the Rev. Gerald B. Robinson, minister of the Lake Villa Community church, has selected for his sermon Sunday morning, Feb. 24. Two services of worship will be held, at 9:45 and 11 a. m., and there will be a supervised nursery for both services.

John Hammond will furnish the special music for the early service. At the 11 o'clock service Mrs. Warren Brown will direct the junior choir in the anthem, "Beyond the Sunset." Mrs. Brown will be at the organ for both services.

**Official Board of Meet Monday**  
Monday evening, Feb. 25, the official board of the Lake Villa church will meet at the church at 8 p. m. A scale model of the new church will be on display, and there will be a discussion on the proposed church loan.

**Cherub Choir to Be Organized**  
Saturday morning, March 2, at 10 o'clock all those children interested in joining a Cherub Choir are asked to meet at the church. Mrs. Gerald Robinson, director of the Senior Choir, is inviting any children in kindergarten, first, second or third grade who enjoy singing to join this group, in the hope that they may assist in providing beautiful music for our worship services.

The Junior Choir will rehearse Monday, Feb. 25, at 3:15 p. m., and the Senior Choir on Thursday, Feb. 28 at 7 p. m.

**Pastor Holds Candlelight Meditations**

The minister of the Lake Villa church, the Rev. Gerald Robinson, will hold his weekly service of Candlelight Meditations at the church each Wednesday evening, Feb. 27, from 7 to 7:30. This service is open to all who would like to come.

#### Methodist Men to Complete Infant Nursery

Members of the Methodist Men's Club of the Lake Villa church will meet for the third time Thursday, Feb. 28 at 7 p. m. to complete work on a nursery room in the basement of the parsonage. A new rug has already been donated for the new nursery, and anyone who has baby furniture or used toys in good condition which they would like to give are asked to contact the minister.

**Membership Training Class Meets Friday**  
The pastor's membership training class meets on Friday, March 1, at 3:15 p. m. at the church to continue the study of the organization and sacraments of the Methodist church.

Wipe up those kitchen spills immediately. A safe kitchen is a clean kitchen. Anything spilled on the floor is a definite hazard, especially to an older person who is more likely to be seriously injured by a fall.

### Salem

Mrs. Byron Patrick, Correspondent  
Tel Bristol 110-F22

E. H. Hartnell and F. H. Hartnell attended a Chevrolet meeting in Milwaukee on Wednesday.

Mr. and Mrs. Byron Patrick were dinner guests on Sunday of Mr. and Mrs. Don Scott at Waukegan.

Mrs. Bessie Elkerton of Antioch spent Sunday with her sisters, Mrs. Lottie Bloss and Mrs. Nellie Head.

Mr. and Mrs. Arthur Bushing, Sr., and Arthur, Jr., attended the wedding of their nephew in Chicago on Saturday.

Mr. and Mrs. Conrad Konzinski and infant daughter Julie Ann of Milwaukee visited their parents, Mr. and Mrs. Frank Dix on Wednesday.

Mrs. Andrew Neilsen of Woodstock spent the week end with Miss Katherine Rathe.

Mr. and Mrs. Byron Patrick vis-

ited their son, Ray Patrick and family on Saturday afternoon in Kenosha.

Mrs. Gilbert Tuttle is a patient at the Kenosha hospital where she underwent surgery.

Louis Koehn is a patient at the Kenosha hospital.

Mrs. Robert Patrick and Mrs. Lester Dix attended a variety spread at the home of Mrs. Stanley Stoen at Bassett on Sunday afternoon.

### Information Vital When Involved in Auto Accident

The best way to keep from being involved in an automobile accident obviously is to drive carefully and to watch out for the other fellow—motorist and pedestrian alike.

But in case you are in an accident, the Chicago Motor Club recommends that you observe the following procedure:

—Warn approaching traffic, so as to prevent another accident.

—If there have been any injuries, make the injured as comfortable as possible. But if the injuries appear to be serious, don't move the patient unless it is absolutely necessary. Call for a doctor or an ambulance.

—If any one is taken to a doctor's office or a hospital, get the doctor's name as well as that of the hospital.

—Exchange driver's and owners' names, addresses and license numbers with the other party. Show your operator's license upon request.

—Call the police if damage is serious. (By law in Illinois, and in most other states, a state report is required if damage exceeds \$100 or if some one is injured.) If you are outside the limits of a city or town, call the sheriff's office or the state police.

—Note the position in which the car or cars came to a stop. Then move your car out of the way of traffic or to the side of the road.

—Write down the names and addresses of everyone at the accident scene. Indicate whether they are drivers, passengers, or pedestrians, and whether or not they actually saw the accident.

—Write down a detailed description of all damage to the other car. Write down the physical facts of the accident—precisely when, where and how it happened. Make a note of the number, direction and length of any skid marks. List all facts relating to the accident.

—If you have a camera handy, take photographs of accident.

—Never leave the scene of an accident until after the police have arrived. Also, be sure that either you or some one you rely upon has attended to the matters listed above.

—Don't argue over who was at fault. Don't admit liability. Make no statement regarding the accident except to the police and later to your insurance representative—but not until after he has presented his company credentials. In case of serious injury or death, telephone or wire your insurance company.

—Be sure that your notes of the accident are complete. They are invaluable aids, even after you have been involved in a minor ac-

cident, such as fender or bumper damage.

As a matter of good driving sense, do the following things now so to be prepared in case you become involved in an accident:

1. Check your automobile insurance policy; make sure your policy limits are adequate and that you have proper coverage.

2. Install both a first aid kit and a fire extinguisher in your car, and learn how to use them.

3. Put the following items in the glove compartment of your car: your name, address, telephone number and name of a person to notify in case of emergency; writing paper, pencil and flashlight.

### Monopolistic Powers, of Management or Labor, Bad

Chicago—Wage and price control, a state controlled economy in America, the National Association of Manufacturers has charged in a statement just released from its Chicago office.

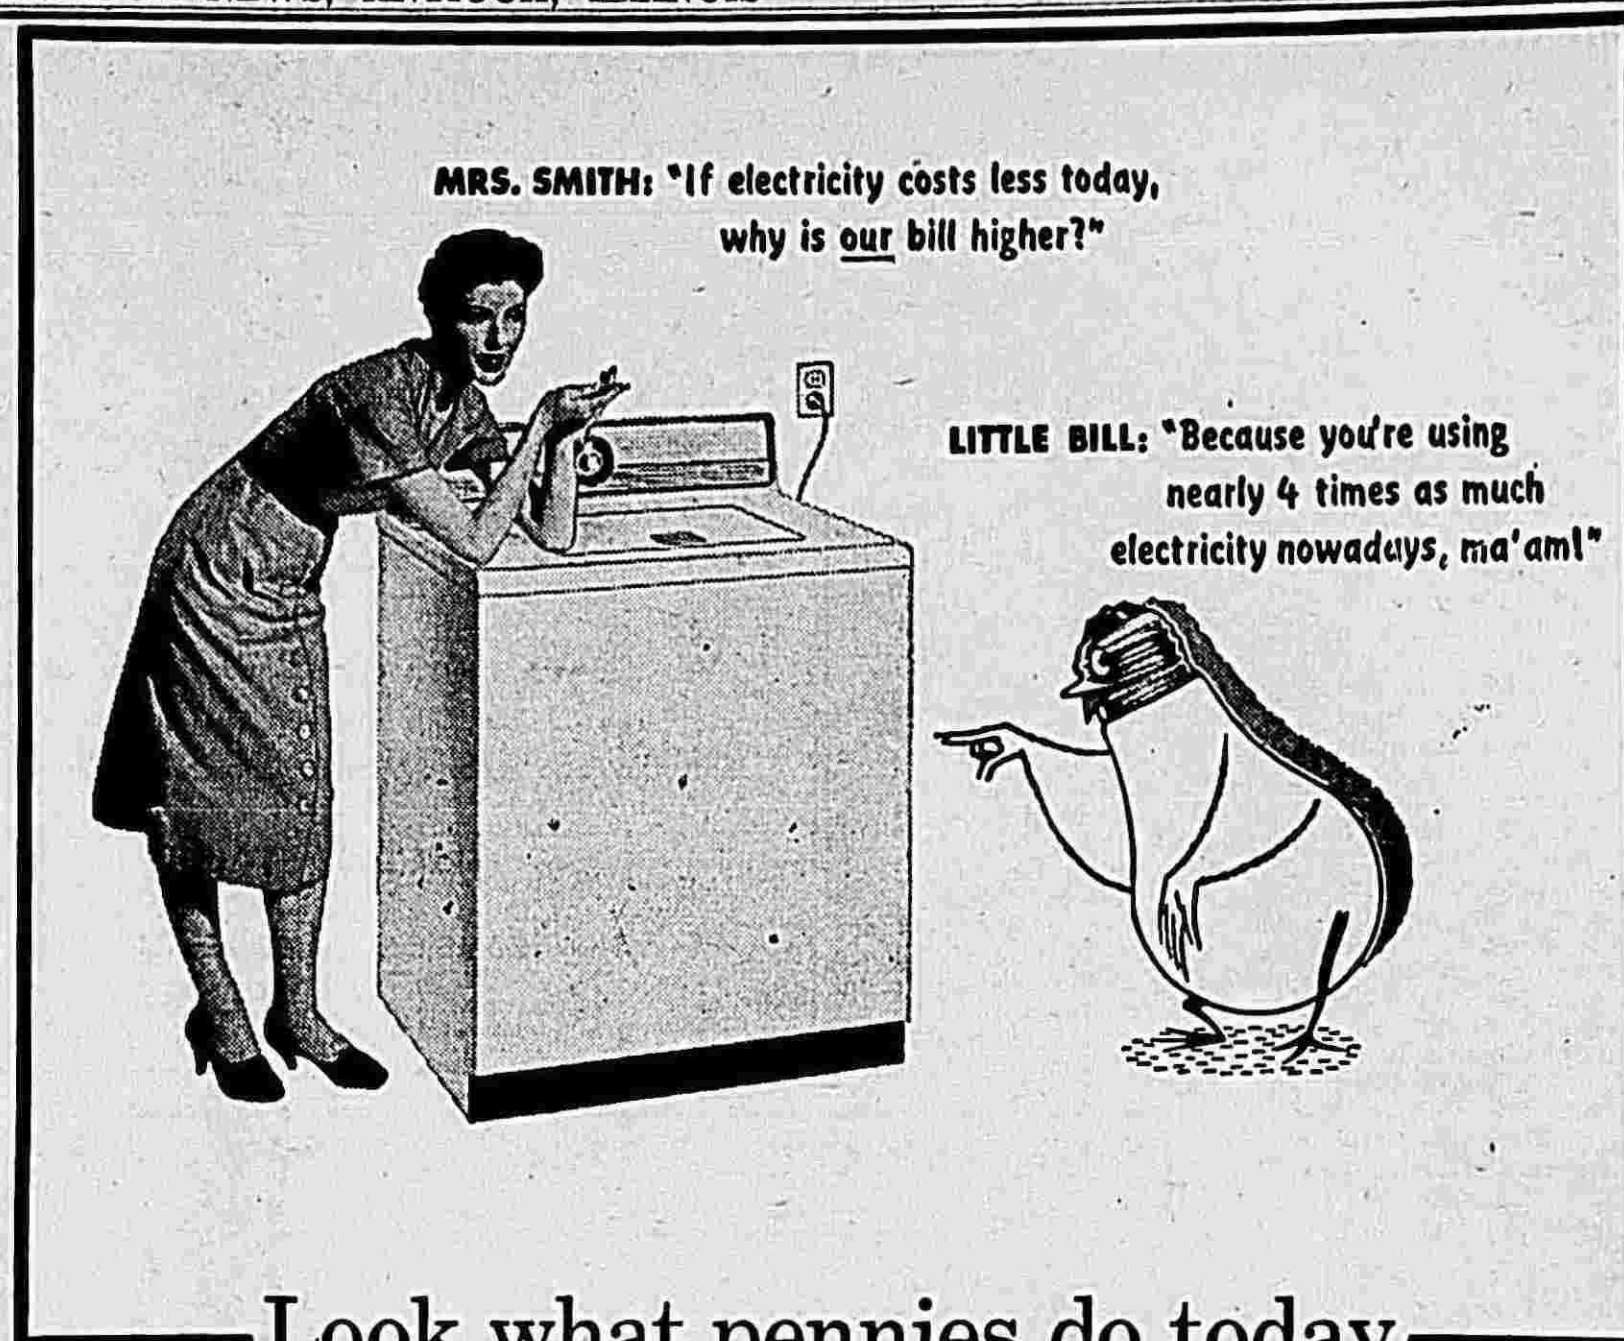

"The remedy for the wage-price spiral and resulting inflation does not lie in regimentation," the NAM asserted. "It lies in thrifty government and in maintaining conditions under which the force of the free market can operate."

Ernest G. Swigert, NAM president, declared that federal controls would produce "austerity and shortages which are characteristic of all totalitarian economies."

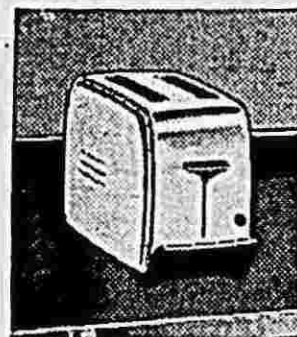

Swigert said the NAM agreed completely with President Eisenhower's statement that the wage-price must be stopped in the long-range interest of labor, management and the American people. He added that "NAM has been warning for some time that wage increases which outrun productivity are producing economic maladjustments which sooner or later will lead to a depression."

Emphasizing the need for free market conditions to solve the problem, Swigert said that "when monopolistic powers interfere, inequities are bound to result and should not be tolerated." The NAM President went on to say that anti-trust laws should be enforced against labor unions to the same extent that they are applied to business.

"The monopolistic powers now exercised by large nation-wide unions in the basic industries, which permit these unions to demand—and get—unwarranted wage increases and other benefits, must be brought under control for the benefit of their members as well as the rest of the American people," Swigert asserted.

Look what pennies do today  
when you live the modern electric way

Your electric toaster toasts 18 slices of bread for a penny.

A penny brings you over two hours of television entertainment.

Your automatic washer does 3 good-sized loads for a penny.

Your steam or dry iron does all your ironing for 1½¢ an hour.

"Electricity costs less today, you know than it did 25 years ago!"

## Postmaster Urges All Mailers to Use Postal Zone Number in Cities

Postmaster Roy I. Kufalk today urged all Antioch area mailers to use postal zone numbers when writing to individuals or firms in large cities.

"Nation-wide experience of the Post Office Department shows," Postmaster Kufalk said, "that some types of mailings gain as much as 8 or 10 hours by using zone numbers, because zoned mail can be sorted more quickly. When you use the Postal Delivery Zone System you reduce the number of times your mail is handled and thereby expedite its delivery."

Kufalk pointed out that the delivery zone system has been in use in this country since 1943 and has proved itself by many years of service. "One hundred and six major cities over the nation are zoned for delivery," the postmaster explained, "and these 106 cities handle about half the nation's annual mail load of 58 billion pieces."

Midwestern cities where zone numbers should be included are: Chicago, Illinois; Evansville, Indiana; Indianapolis and South Bend, Indiana; Des Moines and Sioux City, Iowa; Kansas City and Wichita, Kansas; Louisville, Kentucky; Detroit, Flint, Grand Rapids and Lansing, Michigan; Duluth, Minneapolis and St. Paul, Minnesota; Kansas City and St. Louis, Missouri; Akron, Canton, Cincinnati, Cleveland, Columbus, Dayton, Toledo and Youngstown, Ohio; Madison and Milwaukee, Wisconsin.

Postmaster Kufalk recommends the following specific steps for the benefit of local mailers:

(2) Mailers in Antioch who send considerable mail to major cities, where zone numbers are in use, may obtain zone directories for those cities by writing the Division of Post Office Services, Post Office Department, Washington 25, D. C.

(2) When writing your correspondents ask what their postal delivery zone number is, and if they have one always use it.

(3) Business leaders are urged to issue instructions to all typists and personnel engaged in correspondence to use zone numbers wherever necessary.

(4) If you have any questions about zoning, ask your Postmaster.

If you must use carbon tetrachloride for cleaning be sure there is adequate ventilation. Choose a day that isn't excessively humid and open the windows wide while you are using this solvent.

## Science In Your Life

### New Lives for the Old

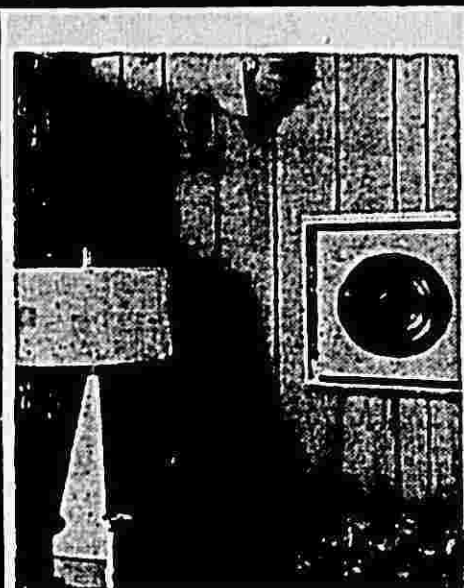

Old age is traditionally regarded as a time of drastically curtailed vigor and activity. New knowledge of the process of aging, however, is beginning to lead specialists to believe that this need not always be so.

Diminishing vigor in later years, research has indicated, is often a result of inadequate intake of vitamins, minerals and important proteins. Lessening hormone production by the body after the reproductive years also appears to play an important role. If these substances could be supplied in the diet, research workers reasoned, perhaps the ageing process could be slowed down.

In one recent test, Dr. H. L. Klemme, an Arkansas physician, evaluated this kind of supportive therapy in 35 aged people. A special formula, including vitamins, minerals, hormones and blood-building ingredients was used in the test.

After two weeks of treatment, 33 of the 35 people showed both physical and mental improvement, Dr. Klemme reported. The invigorating effect of the formula was accompanied by a sense of well-being, improved appetite, better flexibility of limbs and improved social behavior — truly a remarkable achievement.

For many older people, who are plagued with poor teeth, ill-fitting dentures, emotional depression and lack of any compelling interests in life, nutrition is a constant problem. Living on toast and tea may be the easiest way to get through meal-

times, but it is far from the healthiest way to support the body's years. For such people, a diet supplement can enable them to enjoy to the fullest those extra years given them by modern medical advances.

## You Can Take Credit for Overpayment of S. S. Tax

Taxpayers who worked for more than one employer last year should be sure to attach the "B" copies of all their W-2 forms (withholding tax statements) when filing their income tax returns, H. Alan Long, Chicago district director of Internal Revenue announced today.

They should also check to see if they have overpaid their social security tax for 1956. This tax is deducted from wages at the same time as income tax is withheld. Mr. Long pointed out that the maximum social security tax for employees is \$84, and that anything withheld above that amount should be claimed for refund or applied to any balance of income tax owed. This excess withholding can arise only when a person has worked for more than one employer during the year. "Persons who worked at varying

wage rates, or who did not work for a while between jobs may find themselves entitled to refunds." On the other hand, taxpayers who worked for several employers might find that they have gone into a higher tax bracket and thus owe additional tax, Mr. Long said.

Persons who have not received W-2s for short jobs held during 1956 should contact the firms which employed them. Those who have lost the statements ought to ask for duplicates at once.

Bureau of mines research workers have developed an explosion-proof light for use in coal mine photography.

# SOCIETY EVENTS

## St. Peter's Holy Name Society Plans Dance For Saturday Night

The Holy Name Society of St. Peter's parish, Antioch, has completed plans for a dance party that will take place at the annual St. Patrick's Day party generally held on March 17. More than 1200 tickets have been mailed out to parishioners of St. Peter's parish for a dance party to be held at the Wonder Bar Ballroom at Twin Lakes, Wis., Saturday, with dancing from 8 p. m. till closing time.

Music will be furnished by Vic Parise orchestra. All tickets sold in advance of date will be turned over to Holy Name Society and on other tickets sold at the door, the society will receive a percentage.

The officers of the society are in charge of arrangements for the dance, they are Larry Lang, president; Thomas Gibbons, first vice president; Marly Harmon, second vice president; Louis Schaefer, secretary; Bernard Dost, treasurer and the Rev. Francis L. Johnson, spiritual director.

## Scouts Plan Third Drive For Paper on Saturday

Antioch Boy Scouts will make their third paper collection Saturday. With better luck in the weather this should be the biggest collection of the three. More supervisory help is needed from fathers, George Sterbenz said, and if anyone can spare a truck for the day ask that person to call him at Antioch telephone 1035.

Money raised from the sale of the waste paper is shared equally between the scout units including cub scouts.

## BOX SOCIAL SATURDAY AT NEW HOME BENEFIT

The Women of the Moose are planning an old fashioned box social for 8:30 p. m. Saturday at the Moose Home. Members and guests are urged to attend.

Proceeds will be turned over to the Loyal Order of Moose for the new home. There will be music and dancing with music furnished by Ken Kirschmeyer's band.

The card party held Saturday, Feb. 15, was very well attended.

There will be a business meeting this (Thursday) evening at 8 o'clock. Co-workers are urged to bring their blood bank cards. Mildred Gillum, chairman, or Mildred Stroner will accept your cards at the meeting.

## Lake Villa

Mrs. Fred Bartlett, Correspondent  
Tel. Elliot 6-4454

Rosella McCarthy and Ramona Sheehan attended the tenth annual Patriotic V. F. W. Conference at the Conrad Hilton hotel in Chicago. Speakers were as follows: Father Reiney who spent some time in a Red China prison spoke of his experience; Lt. DeLaney of the Chicago police department spoke on juvenile delinquency, Omar Ketchum spoke on National Security, and Mrs. Smith gave skits in Norwegian dialect.

The fifth district meeting of the V. F. W. Auxiliary was held at Joliet Sunday, Feb. 17. Those from here who attended the meeting were Mr. and Mrs. Russell Nickerson, Mr. and Mrs. Anthony Sciacero, Rosella McCarthy, Melvin Skinner, Robert Robertson and Alden Ferdon.

The Lake Villa fireman water-fighting team enjoyed dinner at the Rustic Manor Saturday evening.

Brian Ladewig spent the week end with Mr. and Mrs. Elsworth Ladewig of Zion.

Mrs. Betty Jane Schneider is a patient at Victory Memorial hospital.

Mr. and Mrs. Fred Bartlett were visitors at the Joseph Davis home Saturday.

Guests at the Fred Bartlett home Sunday were Mr. and Mrs. Bernard Schneider, Carol Bellefeuille and daughter, Carla, and Mr. and Mrs. Raymond Bartlett and daughter, Donna Rae of Waukegan.

Mrs. Frank Slazes is recovering at the St. Therese hospital after undergoing surgery last week.

Mrs. Mable Baker of Withee, Wis., spent the week with Mrs. Clarence Blumenschein.

Thomas Charles Peterson has joined the Marines and will leave tomorrow. A party was held at the home of his mother for his last Sunday.

Mr. and Mrs. Arthur Evans celebrated their golden wedding anniversary with friends and relatives at an open house party Sunday, Feb. 17 at the K. P. Reynolds estate. They have five children, 32 grandchildren and 18 great grandchildren, with five grandsons in the service. Their five children are Mrs. Harold White, Curtis Evans of Ivanhoe, Gildert Evans of Round Lake, Mrs. Robert Fryrear of Secor, Ill., and Mrs. Edward Tagmier, of Huntley, Ill. About 150 friends and relatives attended the party.

## Addresses Assembly

Jerry Huml, president of the Student Council at Antioch High School is shown addressing the student body in assembly last Friday at a pep session.

## ANNOUNCE COMING MARRIAGE OF DAUGHTER

Mr. and Mrs. Agar Flood of Allendale, Lake Villa, have announced the forthcoming marriage of their daughter, Nancy Jane, to Peter Appleby, son of Mr. and Mrs. Clare Appleby, also of Allendale.

A Nuptial mass will be said for the young couple by the Rev. Edmund Hood at St. Ignatius Episcopal church, Antioch, at 10:30 on Wednesday, April 3, with a reception following for the families at the bride's home.

After a brief honeymoon the newlyweds will return to Hamilton College, Clinton, N. Y., where Mr. Appleby will continue his studies.

Miss Flood is a graduate of Antioch Township High school and Mr. Appleby is a graduate of Lake Forest academy.

## Takes Position in Waukegan

Dan Lightsey has resigned his position as salesman for Carlson Ford Sales and taken a position as salesman for the Reed-Randall Co. in Waukegan. Lightsey and his family came to Antioch seven years ago when he became associated with his father-in-law, William Rosing, in the Ford garage. When Rosing sold the business to the Carlson brothers three years ago, Lightsey remained as a salesman until this time. The Lightseys will continue to live in Antioch.

## Attend Class Reunion

Mr. and Mrs. William Kufalk attended a class reunion of the Lexington High school class of 1923 at the Y.W.C.A. in Bloomington recently. This was the first reunion of the class in 34 years. Ten members of the class were present. The English teacher, Mrs. Gretchen Ashen, formerly Miss Gretchen Sharp of Pontiac, Ill., was present and greeted her former pupils.

## Larsons Entertain At Dinner Party

Mr. and Mrs. Ted Larson were host and hostess at a six thirty dinner party at their home, Saturday evening. Following the dinner games were played.

Mr. and Mrs. Calvin Hardin are vacationing in Florida.

## O. E. S. to Meet

Antioch Chapter Order of the Eastern Star will hold a regular meeting Thursday evening, Feb. 28.

## Antioch Acorns to Meet

The Antioch Acorns 4-H Club will meet at the Scout Home after school on Monday.

## Lindenhurst

Mrs. John Selzer - Correspondent  
Telephone Elliott 6-1172

Joseph J. Field, son of Mr. and Mrs. Harris Field is spending a 30 day furlough with his parents in Lindenhurst. Pft. Field has been at Ft. Bragg, N. C. His leave is up on March 7th, when he must be in New Jersey for pre-sailing shots. He then leaves for Europe. His parents are holding open house on March 3rd to which his close friends and relatives have been invited.

Rita Mulvihill, a fourth grade student in St. Peter's in Antioch has been home this past week with the measles, the German kind. Her brother, Kenneth, has been home also with an ear infection.

Mr. and Mrs. William Bordegon are leaving soon for a sojourn in the sunny climes of California.

Mrs. A. O. Nelson and children were callers Monday evening in the John Selzer home.

Mr. and Mrs. Harry Willis were callers Sunday morning in the Stanley Sasiadek home.

## Heirlooms Displayed During Antique Day Before Antioch Women

Among the heirlooms displayed at the Antioch Woman's Club "Antique Day" on Monday were a fluting iron, a hand woven linen tablecloth, old glass, a silver drip coffee pot of 85 years ago, a mechanical apple peeler, tin type photos, a Civil War hand bullet molder and a bed warmer with a long handle and container for hot coals to be passed between the sheets.

Some members told of items they were unable to bring which included a vacuum sweeper which is pedaled for suction, a sewing machine with foot shaped pedals, a home made reed organ and dueling pistols of 1811.

Musical numbers by high school students concluded the program. Barbara Paulson played the saxophone and Bryan Cain and Jay Cribb played a cornet duet. Jay had been sent to music camp last summer by the club.

Mrs. Ray Bruhn and her committee served refreshments from a table adorned with fresh flowers and kerosene lamps.

## Attends Fathers' Day at Milwaukee-Downer College

Fred W. Jach, rite. 2, attended "Fathers' Day" at Milwaukee-Downer College Saturday, Feb. 16, as the guests of his daughter, Roberta, a junior.

"Life with Father" was the theme of the invitations, but "Life at Milwaukee-Downer" was the subject of the program planned to acquaint the guests with campus activities. Tours of the various buildings, visits with faculty and staff, a volleyball game, buffet dinner, and evening program of dramatic skits were on the schedule.

Miss Karen Lightsey, daughter of Mr. and Mrs. Dan Lightsey, will reign as queen of the winter formal at Rollin Wheels Roller rink at Twin Lakes, Sunday.

## Go to N.A.S.S.P. Meeting

Albert L. Dittman, principal of Antioch Township High school, and L. H. Rouse, Grayslake High school principal left by airplane last night for Washington, D. C. to attend the national meeting of the National Association of Secondary School Principals. Principal H. L. Wesner of Elva-Vernon Township High School will join them Friday. Other principals and superintendents of Lake county who attended the A. A. S. A. at Atlantic City earlier this week will also be present.

## Will Demonstrate Knitter

Ethel Wolpert of Chicago will be at the Antioch Sewing Center Friday-day and evening, and on Saturday to demonstrate the Speed-O-Knit machine, according to the proprietors Mr. and Mrs. R. S. Erickson who are inviting the public to see the demonstration.

Commenting on the nation's growing energy demand, Dr. Chaney Starr, vice president of North American Aviation, Inc., recently predicted "it will be 10 years before reliable and desirable nuclear power plants are demonstrated." He added that it will be another half century "before they play a dominating role in power generation."

## Hickory Corners

Mrs. Wm. Thompson, Correspondent  
Tel. 583W2

Mrs. Curtis Wells and her daughter, Mrs. Emil Hall was attended the annual Blue Cross banquet held at the Rustic Manor at Gurnee, on Wednesday evening, Feb. 13. Mrs. Wells is the director for the north part of Lake county. The drive for new members opened on Feb. 14 and will close the last day of this month.

Sunday visitors at the Arthur Stoneburg home were Mr. and Mrs. Bud Stoneburg and daughter, Paula of Milwaukee and Mr. and Mrs. G. W. Stoneburg of Mundelein.

Mrs. Florence Carter of Kenosha was a house guest at the Fred Leable home a few days of last week. Mr. and Mrs. Leo Thompson and children of McHenry were Sunday evening callers at the Will Thompson home.

Mrs. Emmet W. King called on her sister, Mrs. Grace Turnock in Kenosha Friday afternoon.

Mr. and Mrs. Harold Wilton spent Saturday with the Chris Bock family at Gurnee. Mr. and Mrs. Norman Bock, also the latter's sister and husband, all from New York, were there on a week-end visit.

Mrs. Ray Laursen and her daughter, Mrs. Harvey Gheris and her son, and Mrs. Arthur Stoneburg drove to Lake Bluff on Tuesday, Feb. 19, and attended a birthday luncheon for Mrs. Anna White at her home. Mrs. White is the mother of Mrs. Laursen.

Mr. and Mrs. William Strahan and family of Antioch were Sunday afternoon callers at the Harrie Tillotson home. They also visited Mr. and Mrs. Joe Strahan.

Mr. and Mrs. Harold Butler and children of Waukegan called on the Curtis Wells family Sunday afternoon in their new auto.

Spencer Wells visited the Gordon Wells family Sunday afternoon. Mr. and Mrs. Leonard Michaelis and daughter of Bassett, Wis., were Sunday evening callers at the Wells home.

## O, Say Can You See!

Perhaps the most important thing in safe driving is ability to see. We have to see danger to avoid it. We must see the road to stay on it. We can't read signs unless we see them.

We give eye tests to be sure drivers can see before we license them but often their vision is reduced more than half by defects that are not physical.

This problem of seeing things is worse for the winter driver, says the Illinois Division of Traffic Safety. It is complicated by more hours of darkness, frost or steam on the inside of windshields and windshield, snow and ice on the outside, falling snow, low charge in batteries and dirty headlights.

Winter comes every year. Each of us who has driven more than one year is aware of what conditions to expect yet we seldom take precautions and then seem surprised when trouble catches up with us. Let's start now before we are in trouble to—

Get good windshield wipers on the car.

Get an ice scraper for windows and windshield.

See that heater and defrosters are in good working condition.

Clean headlights and tail-lights too.

## Beware The Pitch Man

"Sometimes it looks like the world is rather heavily populated with smooth, fast-talking pitchmen who dedicate themselves to separating a sucker from his money. We all know this, yet they still manage to pocket millions of dollars every year. There's only one good rule to follow when a stranger knocks on your door with an oily sales pitch. Just say, "No."

## Chrysler 300C Tops Class With 134 m.p.h.

For the fourth consecutive year Chrysler Automobiles have won the NASCAR National Speed Trial championship in the unlimited-displacement class in competition at NASCAR Speed Week on the Daytona Beach sand course.

Robert "Red" Byron of West Palm Beach, Florida, pushed his 375-horsepower stock Chrysler 300-C through the traps of the one-mile course at an average speed of 134.108 mph to top all other competition in the unlimited displacement class.

Mrs. Vicki Wood, Detroit housewife and mother of three children, won her third consecutive Women's National Speed Trial Championship in as many years by driving her Chrysler 300-C at an average speed of 128.619 mph to top the speeds set by all other automobiles driven

by women. She won in a Chrysler 300-B in 1956, and in a Chrysler 300 in 1955.

The 1956 men's championship was won by Buck Baker in a Chrysler 300-B; the 1955 championship by Warren Koechling in a Chrysler 300 and the 1954 championship by Brewster Shaw in a Chrysler New Yorker.

The winning Chrysler 300-C automobiles in this year's competition were sponsored by Brewster Shaw and San Juan Motors of Daytona Beach.

Rapid industrialization of India has prompted plans for boosting annual coal production from the present 38,000,000 tons to 60,000,000 by the close of the country's second Five-Year Plan. Some authorities believe it will be necessary to step up India's coal output to as much as 150,000,000 tons a year to keep pace with its industrialization.

## Some Things Known About Oddities of That Common Cold

NEW YORK—Out of what is frankly termed the "surprisingly limited knowledge" about the common cold, some facts emerge.

Colds are more frequent among women than among men.

Children have more colds than adults. Furthermore, adults in families in which there are young children have more colds than those in families where there are only older children. The common cold is the leading cause of absenteeism reported among elementary school children, and this includes the little angels who accidentally come up with a cold on the day when a tough exam is scheduled.

The five-year period of 1951 through 1955 shows a seasonal pattern: a rise in the incidence of colds from a minimum in summer or early autumn to a peak in midwinter, followed by a rapid decline to a level which approached the minimum by late spring.

The annual range from maximum to minimum incidence is wide and varies from one year to another. For example, in one year the highest monthly incidence rate was 11 times the lowest, and the next year the maximum was only twice the minimum.

These five-year data relate to the recorded experience of the Navy and Marine Corps, which just goes to show you, that even such rugged characters as our sailors and marines are subject to mankind's common bane, even as you and I.

A series on college students showed that about one-fifth averaged more than two colds a year, with the over-all average three a year.

## Just a Second—But Getting Longer

WASHINGTON—The basic bit of time—a second—hasn't what it used to be. Astronomers have given it a new length.

Exactly stated, a second is 1/31,556,925.97474th part of a year—a particular year that went by more than a half a century ago.

The old familiar second was defined as 1/86,400th of a day, measured by timing the revolution of the earth. Most of the world's clocks will tick away these seconds. But scientists who split the second into bits as small as billions will henceforth work with a new time scale.

The trouble with the old hum-drum second is that it won't stay the same length.

Day by day, world time is checked by observatories whose extremely accurate instruments mark how long it takes the earth to turn once on its axis. No clock or watch yet made can match the precision with which the planet revolves.

Even so, the earth doesn't turn at an exact and changeless rate. Early in each year it spins more slowly than it does toward the end of the year. Its rate wobbles over longer periods, too—as much as 30 seconds in 200 years. And very gradually, the earth is slowing down.

## Birds 'Hibernate' to Conserve Energy

LOS ANGELES—Hibernation by certain birds seems to be a mechanism for conserving energy.

In research by University of California zoologists, it was learned that swifts and hummingbirds subjected to low temperatures went into torpor. Birds that had been denied food and had lost weight did so more easily. They aroused when warmed up, and swifts could arouse even at continued low temperatures.

Swifts feed entirely on flying insects and must be able to survive long periods of unfavorable weather when few insects are in the air. The zoologists point out

## One Ton Unit Doesn't Weigh That Full Ton

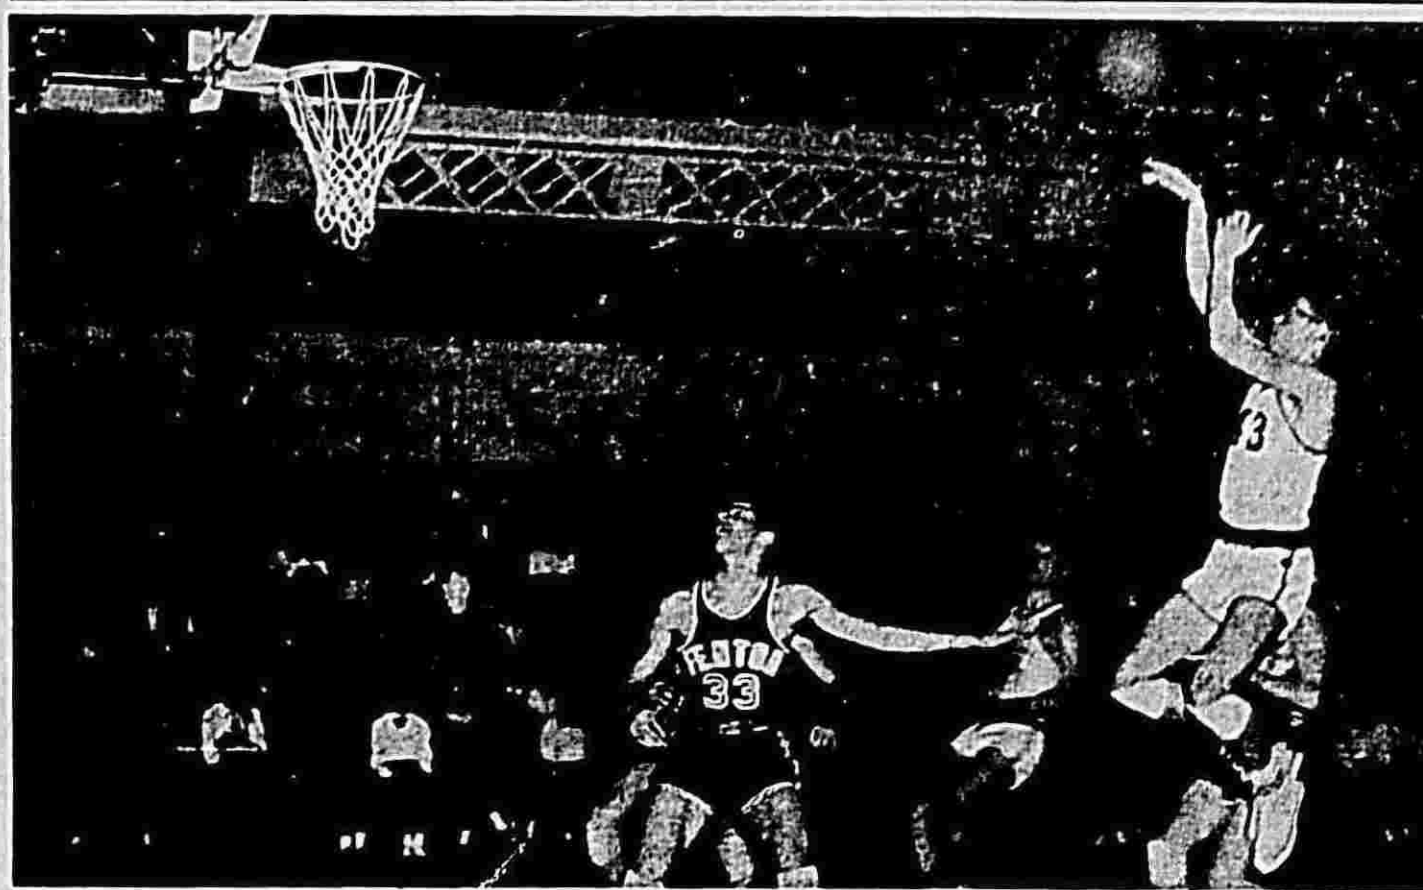

NEW YORK—People sometimes wonder why the cooling capacity of air conditioning is described in terms of "tons." The answer is that a one-ton unit does not weigh a ton but produces as much cool air as would be achieved by melting a ton of ice in a 24-hour period. The big move among home builders these days is to year-round air conditioning, the basis of which is gas heating in winter months and gas refrigeration in the warmer season.

In the latter operation a tiny, quite gas flame replaces the motive power of the electric cooling system.

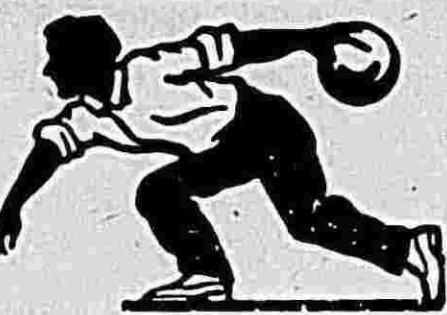

## Rare Legacy

BRISTOL, England—Peter Kendall Bush received an odd legacy from his aunt—three hearses and a coffin cart. The aunt was a collector of funeral vehicles.

## The Ball Is On Its Way For A - - You Call It

Wayne Herbst of the Antioch Sequoits is shown making a jump shot for the basket in the game against Fenton last week, while in the background is Huml who hopes it will be good for two Fenton players are ready to grab the ball if it misses, and Fenton was ahead.

Tavern League Monday, February 18

Kemp's took high team series with games of 834-830-1032-2696. Joe Gorlitz was high individual scorer, bowling 187-192-213-592 total.

Red Arrow Inn won two games from Bud's Tavern.

Tarfu won two games from Slide Inn.

Kapella's won two games from Cole's.

Joe & Helen's took two games from Thompson's.

Pasadena took two games from Smart's.

Kemp's beat Antioch Recreation all three games.

## Limestone, Rock Phosphate Pay Their Own Way

Results of tests conducted on the University of Illinois Experimental Field at Joliet prove the value of rock phosphate and limestone, according to Ray T. Nicholas, Lake County Farm Adviser.

Rock phosphate used in addition to limestone has caused an average increase of 25 bushels of corn during the last four years. The rotation is corn, soybeans, corn, oats, wheat and legume hay.

Potash has also been very effective on corn and has given moderate results on grains and legumes. The average gross return per acre per year for the use of potash (1952-1955) has been \$7.10. The treatment cost \$2.50.

For rock phosphate used in addition to crop residues and limestone, the rock phosphate treatment has given an average gross return per acre of \$17.60. The average annual treatment cost for rock phosphate has been \$1.50 per acre.

Net income per acre during the past four years, after all costs have been deducted, has ranged from \$3.50 on untreated land to \$27.10 with the LKP treatment in a grain system of farming using crop residues and legumes and \$32.30 per acre annually with the LP treatment in a livestock system using barnyard manure.

The soil type at Joliet is chiefly Elliott silt loam.

## Driver Safety

Know how to use your auto horn properly? Don't use loud, long blasts unless you want to irritate everyone within hearing distance. The Institute for Safer Living of the American Mutual Liability Insurance company advocates the use of two short beeps, or a series of beeps, as universal horn language. Here are the advantages: Short beeps have a pleasant sound. They get attention without offending or angering pedestrians and other motorists. They warn without sounding arrogant. Also, says the Institute, two short beeps indicate courtesy. Why not use them along with a friendly wave of the hand to let others know that you appreciate their courteous or considerate act. Courtesy is catching. It helps to save lives.

## Injured Painter Warmed By Papers Until Found

Discarded newspapers kept Edward Brhel, 54, of 441 Orchard st., warm as he lay helpless with a broken leg on Broadway just South of Orchard st., until found by Alvin Nelson at 3 a. m. Monday. Brhel broke his leg when he fell from the curb.

A local physician placed a splint on the broken leg and Brhel was taken to Downey hospital for care. He is a painter employed by Steve Pacini.

## Persons Under 40 Years Should Have Polio Shots

The Chicago Medical Society Wednesday announced the adoption by its Council of a recommendation of its Polio Committee that all members of the society do everything possible to stimulate polio immunization of persons between the ages of six months and 40 years.

This action is in conformity with the national program of the American Medical Association.

The Polio Committee in its report said:

"Chicago area, because of the 1956 outbreak, had an extremely high percentage of the population between six months and 20 years immunized last summer by private physicians, clinics, the Chicago Health Department and the Chicago Medical Society's Hospital Polio Immunization program.

"It is recommended that all children immunized last summer with the two standard doses have a booster dose as early as possible to complete the polio immunization.

"It is estimated that less than one-fourth of the polio susceptible population, between the ages of 20 and 40 years, have had any immunization.

"Physicians should do everything within their means to stimulate immunization of their private patients in this age group.

"State and Federal funds have been exhausted in Illinois to supply free vaccine to physicians upon request. However, physicians may purchase a supply of polio vaccine through their usual drug sources.

"Physicians will cooperate in every way possible to meet the economic needs of their patients in this program. Patients unable to pay a private physician may be referred to the Chicago Board of Health Polio Immunization Clinic, 54 West Hubbard street, Monday through Friday, Between 8:30 a. m. and 4:30 p. m."

## Model of Fastest Sub Undergoing Tests

UNIVERSITY PARK—A model of the world's fastest submarine, the USS Albacore, is being tested in the Garfield Thomas Water Tunnel at the Pennsylvania State University.

Dr. George F. Wislicenus, director of the Tunnel, explains that results of the tests are expected to provide information needed to conduct tests in the Tunnel on other large models. The Tunnel is a testing facility for the Ordnance Research Laboratory here.

The \$20,000,000 Albacore was designed for speed under water, whereas earlier submarines were built with more emphasis on surface speed. She has a fish-shaped body and a blimp-like tail and is driven by a single five-bladed propeller rather than the conventional twin screws.

## Egypt Has Known War For Many Centuries

WASHINGTON—A crossroad of continents, Egypt has known the sound of war for centuries.

Again embroiled in battle, the land of the Pharaohs ties Asia and Africa together at the southeast end of the Mediterranean Sea.

An almost square country, Egypt's surveyor-straight borders abut Israel to the northeast, Libya to the west, and Sudan to the south. The Mediterranean and Red Seas form the northern and eastern boundaries.

Most of the country's 386,100 square miles are almost unpopulated desert, baking by day and cold at night. Aside from scattered oases and Bedouin camps, Egypt's population of more than 20,000,000 is crowded into the Nile Valley and Delta and the Suez Canal zone.

"Somebody, after World War II compared peace to a clock—it could be kept if people would wind it up as it begins to run down. In other words, peace is something that has to be worked at. And, if nations can be maintained."

## Opposes Tax On Writing

"A District of Columbia regulation requiring payment of a franchise tax, or license fee, by anyone who does free lance writing is a new idea in thought control for this country. The principle of applying ordinary business taxes to newspaper organizations as commercial institutions has been accepted without argument. But the principle of collecting a license or franchise tax in order to print a document, sell a book or magazine, publish a newspaper, or write an article of news or comment contains a dangerous threat to the free exercise of our liberties—freedom of speech and of the press—and should be opposed by all free to do so."

## Jordan Is Small Nation

WASHINGTON—The Kingdom of Jordan is about the size of the State of Indiana. It faces Israel on the west along a 350-mile border that is the longest of any shared by Arabs and Israelis. On the northeast, east, and south, the bulk of Jordan territory merges with the vast sand and rock expanses of Syria, Iraq and Saudi Arabia.

An expert of the Koppers Co. predicts the first economical gasification of coal will result from successful development of a high temperature nuclear reactor using a gas cooling agent and ceramic-clad uranium elements.

The Hunter Become Mature  
"Taking on a teen-ager as a hunting companion has about pulled me apart. But this thing of being a guide to a new hunter is a rewarding enterprise. Besides getting more exercise than you need, you can see a boy suddenly grow up with two or three good shots. And the lessons he learns about sportsmanship, fair play, success and failure along the game trails never hurt anybody. It's certainly never hurt America for its youngsters to learn these virtues."

## High School Confers on Soo Under-pass; Board Adopts New Min. Salary Schedule

The Antioch Township High School Board of Education, at its regular meeting Wednesday evening, Feb. 13, heard a progress report on the development of improved facilities for physical education and health, accepted recommendations submitted to them by the Fact Finding committee studying community unit school organization, and adopted a salary plan for 1957-58.

Board member Harold Wilson reported to the Board that Lester Hamlin, Roman Vos, Porter Larson, Warren Polley and Principal Albert Dittman met with Soo Line officials Wednesday, Feb. 13. J. P. Gannon, Division Engineer and J. A. Welton, trainmaster, were present to discuss the possibilities of the railroad constructing an underpass to connect two pieces of school property adjacent to the right-of-way. School authorities stressed the need for maximum security and safety for high school children using the area for physical education and for spectators attending athletic contests.

The rail officials indicated that a survey would be conducted by their engineering department to determine the best location for the underpass and the costs involved. They also mentioned that there would be no difficulty in securing a real estate permit from the Soo Line to acquire dirt along the right-of-way to be used as fill on the school property.

The board voted unanimously to cooperate with other school districts in having a school needs survey conducted by Northwestern University. The University authorities are to serve as resource consultants to the existing fact finding sub-committee of finance, boundaries, population trends, student enrollment, school housing and facilities, curriculum, administration, and teaching staff. The board also accepted the recommendation that the cost of conducting the survey be shared by the districts interested on a pro-rated percentage of the total assessed valuation of the particular districts involved.

The board members stressed the need for a comprehensive study of the school problems confronting the districts in the Antioch community.

The board adopted a salary plan proposed by the board-teacher welfare committee, composed of Ruth Seyfarth, chairman, Louis Biel, Donald Chiappetta, Nancy Denby, Albert Dittman, Warren Polley and Roman Vos.

The board has established a minimum salary scale of \$4,000 for a beginning teacher with a bachelor's degree. A teacher with ten years' experience and an A. B. degree can receive \$5,450. A teacher with a master's degree can start at \$4,200 and, with 11 years' experience, receive \$5,800. The board also accepted additions to the special increment section of the salary plan by adding cross country track, wrestling, fall-winter-spring intramurals for boys. Department chairmen are to receive special payments.

### Scout News

Girl Scout troop No. 58, Emmons School was the guest of Brownie Troop No. 69 at a Valentine party held Wednesday, Feb. 13, in the school building.

Girl Scout troop No. 5, Antioch, will be hosts to Girl Scout troops from Emmons and Grass Lake Schools at an International Friendship meeting to be held at 3:30 p. m. today in the Scout House. Rosa Mena, Antioch Township High School student will give some Mexican dances and talk on Mexico. There will also be an exhibit of Mexican articles.

The individual troops will also collect their Juliette Low Funds at this meeting, one girl from each troop taking charge of each troop's individual collection.

Troop No. 5 welcomes Mrs. Edward Harmon as their new leader.

March 10 through 16 will be Girl Scout week. At this time there will be urgent pleas made for volunteer Girl Scout leaders. Any interested parties watch for the Girl Scout posters, or call Neighborhood Girl Scout Chairman, Mrs. Lester Hribar at Antioch 582-M-1.

March 10 is Girl Scout Sunday, and all scouts are urged to attend their church in a body, wearing their Girl Scout uniforms.

Neighborhood Girl Scout meeting for the leaders of Antioch troops will be held at 10 a. m. Tuesday, Feb. 26th, in the basement of the Antioch Methodist church.

On Feb. 28 the Grass Lake Intermediate troop will see a Walt Disney film.

All troops are busy working on their skits and displays to be exhibited at the Lakeside Council Exhibit to be held at the Antioch Township High School on March 16. It is hoped the parents of all Brownies and Girl Scouts will attend the exhibits and programs and become acquainted with the work being accomplished by the Brownies and Girl Scouts.

### HEALTH TALK

Protection Against Smallpox Through vaccination, over the last century or so, particularly in children, the terror of smallpox has been minimized.

Smallpox is a contagious disease, which is controlled through vaccination and isolation. The disease is caused by a virus. It is a foul and disfiguring disease and frequently fatal. The Educational Committee of the Illinois State Medical Society observes in Health Talk. In the typical case, chills, high temperature, vomiting, aches and pains begin ten to fourteen days after exposure. The characteristic eruption, consisting of blisters filled with pus, appears during this period.

Carelessness and ignorance are responsible for anyone dying from smallpox today. The one dependable step to bring about immunity to the disease is vaccination. In 1796 a country doctor named Edward Jenner performed the first vaccination. His report on subsequent experiments was published as one of the greatest contributions of all medical history. In 1800 Dr. Benjamin Waterhouse, who had ob-

tained some of the vaccine virus from abroad, vaccinated his son who was five years of age, recording the first vaccination in America.

Now most schools in the United States require a child to present on his first day of school a certificate showing that he has had a recent and satisfactory vaccination against smallpox, as safe a procedure as is known to medicine and one in which the complications are rare.

Protection to the infant should be given before the end of the first year. At a young age the vaccination is usually milder and leaves less scar than later. Revaccination should be carried out thereafter every few years.

Because the disease seems to be rare, many parents become neglectful in seeing that they and their children are immunized.

It must be remembered that many diseases are spread through carriers and a person unwittingly exposed to smallpox can start an epidemic.

See your physician—protect yourself and your child. Protection from smallpox can be achieved through vaccination. Have you been immunized?

**WE'LL** tell you frankly — we're  
proud of this car and the price  
level you see published here.

Only a few dollars more than the  
price of a smaller car—for a big and  
brawny Buick! But that's not all!

Do you know this spanking Buick is  
new from the rubber up?

Do you know it has an all-new body—  
and a windshield with more than 200  
square inches of new visibility?

Do you know its roof line is inches  
lower—yet there's full headroom, leg-  
room, footroom for six passengers?

All this took some great engineer-  
ing. But where the engineers went

all out was in making this *the dream  
car of the year to drive.*

New engine—new Dynaflo\*  
response—new steering—new ride—  
more than 150 other chassis changes  
that make this, in fact, the most com-  
pletely new Buick in years—offered  
at a price level that makes it literally  
true: *if you can afford any new car  
you can afford a Buick.*

And what a buy you'll get for your  
money! See your Buick dealer, take  
the wheel—and find out for yourself.

### Crew of USS Arizona To Have First Reunion

The first annual reunion of former officer and enlisted personnel who served on board the U. S. S. Arizona (BB-39), has been officially set for March 2, 1957 at the Jack Kennedy Center, Naval Base, Terminal Island, Long Beach, Calif.  
The U. S. S. Arizona is still officially in commission as a ship of the U. S. Navy. That part of her superstructure which projects above the waters of Pearl Harbor serves as a memorial to all those who died at Pearl Harbor.  
All former officers and enlisted men who served on board the U. S. S. Arizona from date of commissioning to Pearl Harbor Day are urged to immediately contact G. G. Bertok at 12122 Robert Lane, Garden Grove, Calif. In addition, widows and relatives of men who were lost at Pearl Harbor, are also invited to attend the first annual reunion.

**Aids to Winter Driving**  
Car manufacturers have made many contributions to safe winter driving, according to the Illinois Division of Traffic Safety, but three of the most important aids are not included as either standard or optional equipment.

The first is a bucket or box of sand or cinders with a little salt mixed in it. The second is a shovel to scatter the sand and to dig ice and snow away from the wheels. With these two a driver can get out of many a slick spot. The weight of the sand box helps hold the rear end of the car steady, too.  
The third is an alarm clock and it is the most important of the three. By setting it a little earlier we get more time—vital time in winter driving—time to warm up the engine good before we start; time to clean the car windshield, side and rear windows and headlight lenses; and time to drive at a much easier pace than we usually do. In all the safe driving tricks for winter driving, none is quite so effective as

"taking outtime." The alarm clock assures us of enough time to take our time.

Get these three simple aids working for you now. It's no use skidding.

**Don't "Do It Yourself"**  
Few amateurs are qualified to do a professional job of repairing defective electric cords and appliances. And, unless electrical repair work meets professional specifications, the repaired object is generally unsafe to use. This warning comes from the Institute for Safer Living of the American Mutual Liability Insurance Company, which states that defective and unsafe use of electrical equipment is one of the three greatest causes of home fires.

**Is Your Electric Wiring Adequate?**  
Have you added a new major electrical appliance to your home recently? If so, now is the time to check to see whether the wiring in your home is adequate. Increased use of electrical appliances may make your electrical system out-of-date. If fuses blow frequently, that is a sure indication you need the advice of your utility company.

**Young Explorers**  
Does your toddler go unwatched as he explores out of the way places in the home? Unless a playpen or fenced in area is provided, the child should have your vigilant attention. Accidents while unattended are the principal causes of death to small children. Protect your child constantly by observing what he does. Toddlers try something new every day. Be sure that they learn safely.

**An Epitaph**  
"Poor Edgar Chump has gone from hence—his gun was cocked as he climbed the fence."

## Burning Trash

Because trash fires can easily get out of hand, some communities forbid them entirely. If yours does not, check with local fire department regulations before starting such a fire. Some communities require a fire department permit.  
If you burn trash, the National Board of Fire Underwriters suggests these precautions:

1. Never light an outdoor fire on a windy day.
2. Set out, and attach, your garden hose. Keep it handy until the fire is completely out.
3. Use a wire mesh basket or a metal container with a cover to burn in. Set it well away from building, fence, tall grass.
4. Keep children away.
5. Stay with your fire until it is out and the ashes are cool enough to touch.

## Illinois Will Become Most Prosperous Area U. I. Professor Says

The State of Illinois will become the world's most prosperous region, predicts Prof. John Garland of the University of Illinois, a specialist on North American geography.

America has a great future, he believes, and this state as the capital and communications hub of the productive Midwest will grow and prosper to the greatest degree.

He bases his optimism on a combination of advantages unmatched in any other area of the world.

Illinois is a transportation capital, lying at the cross-roads of the nation, where the Mississippi Valley, Great Lakes, and main continental east-west routes meet.

The world's most productive farmlands are in Illinois and nearby states.

The nation's population center is in Illinois, and Prof. Garland believes it will stay there or nearby for many decades.

### Wilmot

Mrs. Herman Frank, Correspondent  
Tel. Trevor 2752

Wilmot Homemakers club met at the home of Mrs. Archie Bausch, Thursday afternoon. Mrs. William Elverman was hostess with Mrs. Bausch. Topic was "Plan on Home Storage." Mrs. Harvey Brown, Mrs. Arthur Winn, Mrs. Roger Sherman, Mrs. Geoffrey Goulding, Mrs. Dan Fleming, Mrs. Floyd Gyger, Sr., Mrs. Norman Rasch, Mrs. Herbert Sattersten, Mrs. Alfred Oetting, Mrs. Jake Rasch, Mrs. Herman Frank and Mrs. Mary Oetting attended the sub-committee of finance, boundaries, population trends, student enrollment, school housing and facilities, curriculum, administration, and teaching staff. The board also accepted the recommendation that the cost of conducting the survey be shared by the districts interested on a pro-rated percentage of the total assessed valuation of the particular districts involved.

The board members stressed the need for a comprehensive study of the school problems confronting the districts in the Antioch community.

The board adopted a salary plan proposed by the board-teacher welfare committee, composed of Ruth Seyfarth, chairman, Louis Biel, Donald Chiappetta, Nancy Denby, Albert Dittman, Warren Polley and Roman Vos.

The board has established a minimum salary scale of \$4,000 for a beginning teacher with a bachelor's degree. A teacher with ten years' experience and an A. B. degree can receive \$5,450. A teacher with a master's degree can start at \$4,200 and, with 11 years' experience, receive \$5,800. The board also accepted additions to the special increment section of the salary plan by adding cross country track, wrestling, fall-winter-spring intramurals for boys. Department chairmen are to receive special payments.

Mr. and Mrs. Reinhart Kieper and daughter, Darlene, Mr. and Mrs. Dennis Fischer and daughters, Antigo, spent Saturday and Sunday with Miss Marjorie Kieper and Mr. and Mrs. Cyril Pacey.

### COUNTY ZONING NOTICE STATE OF ILLINOIS ) ss. COUNTY OF LAKE )

TO WHOM IT MAY CONCERN: PUBLIC NOTICE is hereby given to all persons in the Town of Antioch, Lake County, Illinois, that a public hearing will be held on March 8, 1957, at 1:30 P. M., in the Village Hall, Antioch, Illinois, relative of a proposal to vary the terms of the Lake County Zoning Ordinance, or to reclassify by amendment thereto, from the F-Farming District, to the R-3 Residential District, the following described real

estate, to-wit:

All that part of the Southwest quarter of Sec. 17, Twp. 46 N., R. 10, East of the 3rd P. M., described as follows: Beginning at the East line of the Southwest quarter of Sec. 17, Twp. 46 N., R. 10, at a point 5 chains and 99 links South of the Northeast corner of said quarter Section; thence South on quarter Section line 18 chains and 97 links to a stake 14 chains and 98 links North of the South quarter Section corner of said Section; thence West 40 chains to the West line of said Section 17 to a

stake 15 chains North of the Southwest corner thereof; thence West 8 chains to a stake from which a White Oak bears north 24 degrees West 122 links; then North parallel to the East line of Section 18, Township and Range aforesaid, 19 chains to a point 6 chains South of the North line of the Southeast quarter of said Section 18; thence East 48 chains, more or less, to the place of beginning, excepting, therefrom, a strip of land 84 rods 3 1/2 feet wide, across the West end of the above described premises, containing 40 acres, more or less, and

excepting therefrom the East 296 feet of the South 296 feet.

As a result of the petition of GERTRUDE A. BROOK, which petition is on file and available for examination in the office of the below named Board, Court House, Waukegan, Illinois.

All persons interested are invited to attend said hearing and be heard.

LAKE COUNTY ZONING BOARD OF APPEALS

S. J. Sorenson, Chairman  
Dated at Waukegan, Illinois, this 21st day of February, 1957.

Generally unchanged markets from a week ago. Bargains in beef, lamb, pork, new-pack citrus products, fresh oranges and grapefruit, eggs, turkeys and stewing hens. Higher prices for tomatoes, lettuce, brussels sprouts and green cabbage. Indications of stable or lower food prices for:

**Beef:** Continued values for weeks to come. Record numbers of cattle getting ready for market, 4% more than a year ago.

**Lamb:** Heaviest supplies of animals on feed since 1948, 5% more than a year ago.

**Poultry:** Turkeys in storage at record volume, 15% increase in production planned as of now. Fryers returning to market in volume within a few weeks.

**Fresh Fruits & Vegetables:** Prices change quickly with supply, expect: More—tomatoes, sweetcorn, potatoes. Less—celery, snap beans, green peppers, lettuce, cabbage and carrots.

Based on Market Survey For Week of Feb. 18-23

Worship Services—11:00 A. M.

Two new electric generating stations built on inland rivers in 1956 will each be an annual customer for 4,000,000 tons of coal, delivered by river barge.

## Parents Blamed for False Ideals of Their Children

San Francisco.—Mrs. Roy F. Layton, president of the Girl Scouts of the United States of America, today placed the responsibility for contemporary youth problems in this Country on parents who have created false ideals and underestimated the capacity of their children to look at the truth.

Speaking before 6,000 adults at the opening session of the thirty-third national Girl Scout convention in the civic auditorium here, Mrs. Layton said, "Many years of influence have gone into making of what we call juvenile delinquency. All of us helped shape this time."

She said the nation's young people have failed to develop maturity because "for years our generation has robbed them of the step-by-step independence that leads to maturity. . . . We cannot command moral

courage and moral action from children when for years many of us have set examples of sophisticated amorality, floundering indecision, the quest of material gods."

**SEQUIOIT MASONIC LODGE**

M

Don't miss the big television hit, "THE ED SULLIVAN SHOW," Sunday evening, 7:00 to 8:00, Station WBBM-TV, Channel 2.

960 MAIN ST. FEYERABEND LINCOLN - MERCURY, INC. ANTIOCH, ILL.

## All this is new in The Big M's Dream-Car Design

It's America's most changed car! Completely new in styling, in size, in comfort, in handling ease, in ride, in power—in everything that counts in a car!

**QUADRI-BEAM HEADLAMPS** set a new pattern for safer night driving . . . distinctive Jet-Flo bumpers for extra protection high and low . . . distinctive rear projectiles, dramatic V-angle tail-lights . . . they're all part of Dream-Car Design.

**EXCLUSIVE KEYBOARD CONTROL** out-dates all push-button transmissions. A power seat "remembers" your favorite driving position. Exclusive Full-Cushion Shock Absorbers and 3 other bump-smothering features bring you Mercury's exclusive Floating Ride. Dream-car features by the dozen make Mercury the most exciting new car on the road!

**TURNPIKE CRUISER V-8 ENGINE**—This new 290-hp engine is the finest in Mercury history; has an exclusive Thermo-Matic Carburetor to increase efficiency summer and winter. See The Big M today at our showroom! LMDA

## Highway Safety Picture Is Held Not So Realistic

MINNEAPOLIS—Americans are being "deluded" into thinking that highway safety is improving while in reality the increasing accident problem has created an urgent need for immediate strengthening of law enforcement efforts, according to a recent statement by Thomas N. Boate, manager of the Accident Prevention Department of the Association of Casualty and Surety Companies.

Boate denounced present systems for measuring highway safety in terms of deaths per 100,000,000 vehicle miles of travel and called for "aggressive law enforcement by the police and the courts" in order to curb the nation's "alarming upsurge" in traffic deaths.

"In dealing with the cause and effect of highway accidents," he said, "we should not be concerned with the rise and fall of a statistical flow chart. The practice by the nation and by the states of publicly measuring the degree of safety on the streets and highways on the basis of fatalities per 100,000,000 vehicle miles of travel is not only a travesty upon the truth but is dangerously misleading in its application."

He suggested: an absolute top speed limit of 60 miles per hour for multiple lane and limited access highways; strengthening of state police forces; new and more effective traffic laws and educational programs to provide training for every new and young driver.

"Today, and for some years to come," he added, "the most important element in this or any other productive safety program is aggressive law enforcement by the police and the courts. I say this because the record shows that the public has not yet demonstrated the ability or the willingness to handle the automobile without being carefully regulated and strictly controlled."

## Musical Activity On Big Upswing

CHICAGO — The current upsurge of musical activity in the United States—more than 27,650,000 Americans are now playing musical instruments—is reflected in the steady growth of community and neighborhood adult music groups.

The nation's adults have developed an increasing interest in music-making, with their musical tastes sharpened by constant association with radio, record and television offerings. Day and evening classes in music are filled with businessmen, housewives, clerks, scientists and professional persons who learn to play the piano, organ, band or stringed instruments.

In many instances, amateur musicians are aided in forming music groups by community councils composed of representatives from the town's civic, educational, cultural and recreational organizations. At least 500 of these groups have been formed and more are in preparation.

Occupations draw people together musically. For instance, in Duluth, Minnesota, groups of business men and women meet once a month to share ensemble music and to give solo performances for one another. There is a special section for students who share their music at hospitals.

## Lack of Maturity Cause Of College Failures

UNIVERSITY PARK, Pa.—Dr. Harold K. Wilson, who for the last six years has concerned himself primarily with the academic lag, blames lack of maturity for the inability of many high school graduates to make the college grade.

Dr. Wilson, director of the Division of Intermediate Registration at the Pennsylvania State University, also inclined to believe that the home rather than the school is to blame for this immaturity in college age youngsters.

Parents, in the opinion of the Penn State specialist, too often fail to instill in their children a sense of responsibility and such essential qualities as self-discipline, independence and the ability to make decisions.

"The immature student who has treated high school as a lark and comes to college with the same irresponsible attitude, all too soon finds himself in difficulties with his studies," he points out.

### Recommendation

MONTICELLO, Ark. — An instructor at Arkansas A&M College was checking the roll. One girl was absent so he asked the class if anyone knew anything about her.

A boy answered, "She's a sweet girl."

## Girls' Glee Club To Sing At Concert Sunday

Members of the Girls' Glee Club of the Antioch Township High School are caught in the midst of preparations for the concert to be presented at 3 p. m. Sunday in the high school auditorium. The concert will feature music by the Girls' Glee Club and A Cappella Choir. Pictured above are, left to right Barbara Young, Barbara Fleider, Rose Northern, Nancy Brockway, Carolyn Westburg, Sandra Kubs and Penny Anderson. No admission will be charged for the concert and the public is cordially invited.

## Lake County Leads State D.H.I.A. Testing

Lake county leads all counties in Illinois in the per cent of dairy cows on D. H. I. A. test, according to Ray T. Nicholas, Lake County Farm adviser. Of the 11,800 milk cows on 614 Lake county farms, 2,630, or 22.3 per cent are on D. H. I. A. test. These cows comprise the herds of 65 dairy farms in Lake county. That D. H. I. A. records have helped improve the production of herds is illustrated by the fact that D. H. I. A. herds average 9,829 pounds of milk per cow compared to only 7,086 pounds for all cows in the county. Since it requires at least 7,500 pounds of milk containing 4 per cent butterfat to pay for the costs of feed, labor, housing, depreciation, taxes and other expenses, it is obvious that the dairyman with only average producing cows is finding it difficult to pay all expenses.

The D. H. I. A. records have paved the way for many dairymen to practice a profitable breeding, feeding, and management program. Among the Lake County D. H. I. A. members are many who have been testing their herds for over 30 years. These include most of the most profitable herds in the county, states Farm Adviser Nicholas.

## Career Day For Youth March 2nd

March 2 has been designated as Career Day for Youth in the Rock River Methodist Conference according to the Rev. Dr. Wesley M. Westberg, president of Kendall College, Evanston, Ill. and members of Conference Commission on Christian Vocations.

Dr. Westberg said the conference will be conducted in two sections for the first time this year. One section will be at Garrett Biblical Institute, Evanston, and the other at Court St. Methodist Church, Rockford, Illinois.

Deans of the two conferences will be Rev. Robert Dahl, chaplain of Chicago Wesley Memorial Hospital and the Rev. Franklin M. Zentz, pastor of Court St. Methodist Church.

The meetings will open at 8:30 a. m. and adjourn at 3:30 p. m. The conferences will discuss the factors involved in youth making decisions for Christian vocation. The young people will break up into interest groups to discuss occupations of pastors, chaplains, missionaries, directors of Christian education, church parish workers, church musicians, Christian social and hospital workers, college teachers and chaplains, church vocations, counseling and other occupations having Christian motivations.

## Reports New Lactation Av. of Ravenglen Herd

The Holstein-Friesian Association of America, Brattleboro, Vt., has reported the completion of a new lactation average by the registered Holstein herd of Ravenglen Farm, Antioch.

The herd's 43 cows averaged 13,445 lbs. of milk and 503 lbs. of butterfat on a two milkings a day—305 day—mature equivalent basis.

University of Illinois supervised the weighing and testing of the herd's production in Herd Improvement Registry—an official breed improvement program of the national Holstein organization.

The program, in continuous operation since 1929, provides individual lactation and lifetime production records—valuable tools in the practical selection vital to continued improvement—on every cow in participating Holstein herds.

## N. I. Gas Co. Sponsors College Scholarships

Northern Illinois Gas Company will sponsor two 4-year college scholarships to be awarded through the National Merit Scholarship Corporation, it is announced by Marvin Chandler, the utility's president.

The scholarship will be awarded to 1957 high school graduates who are residents in the northern Illinois territory served by the gas utility, and who plan to attend any of the 16 Illinois colleges and universities included in the company's program, Chandler stated.

At least one of the scholarships each year, he said, will be given to a student intending to pursue an engineering course. Preference for one of the scholarships will be given to a child of a Northern Illinois Gas Company employee who is determined eligible by the National Merit Scholarship Corporation.

## Work Progressing on Moose' New Building

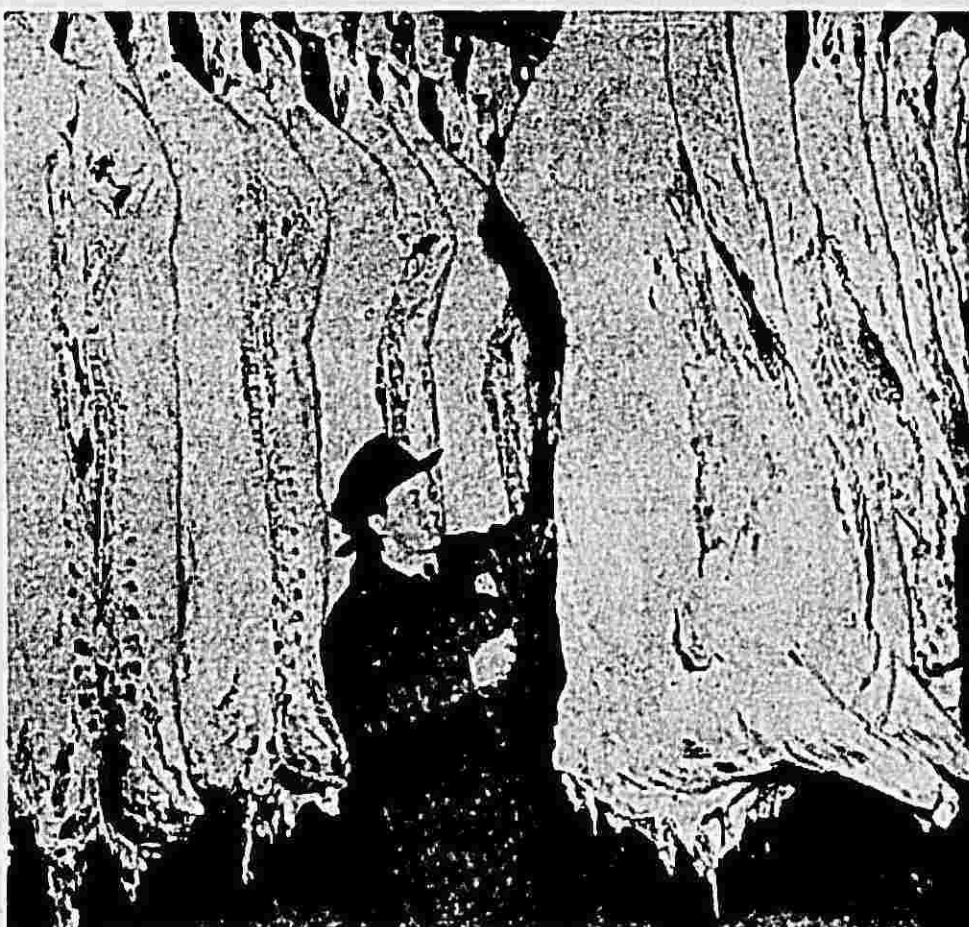

Work on the order of Moose lodge new home is progressing rapidly and it is anticipated that the lodge will be able to occupy its new quarters by April 1.

Formerly the Snow-White refreshment rooms in what was once the Burgess Battery building at 884 Main st., the Moose building is being transformed into a beautiful meeting place and club.

Work is now being done on the panneling of the walls.

One of America's leading coal producing companies, the Pittsburgh Consolidation Coal Co., has underground reserves of more than two billion tons of Bituminous.

## It Looks Like A Good One

Joseph Patrovsky, Jr., of the Antioch Packing Co. augments his Trailer Load Beef sale through the selection of some prime carcasses at the Swift & Co. plant in Chicago. Here he points out those he chose and Joe knows his beef.

## Funeral Today . . .

(continued from page 1)

from the Medical School of the University of Nebraska. He served with the Illinois State Department of Health before opening offices in Antioch.

He was a member of the Antioch Methodist Church, Antioch Lions Club, Antioch Post American Legion, the Lake County Medical Society, American Medical Association, Sigma Phi Epsilon, and Phi Rho Sigma.

Survivors are his wife, Eva, and two sons, Ensign David S., Naval Air Force, Hutchinson, Kansas, and

William N., attending Wabash College, Crawfordsville, Indiana. One sister survives, Mrs. Alex Zieg, Long Beach, Calif.

The Rev. Howard Benson will officiate at the funeral service to be held today (Thursday) at 1:30 p. m. at the Strang Funeral home. Interment will be private.
